Repeat registration fee: \$200/\$220 - \$220 by purchase order,

***This course is part of the Brain Gym® instructor licensure curriculum***

**Brain Gym** is an innovative program that helps each learner

- settle more easily into his or her best learning pace
- overcome blocks to efficient learning
- improve focus, concentration, organization, listening, and overall cognitive ability

**Brain Gym** is easy to learn, fun to use, and requires no special equipment. It smoothly supplements, rather than replaces, other areas of the school curriculum. It simply “greases the wheels of learning,” and allows the child’s innate ability to come out in his or her work.

Participants will come away from this course with information and tools they can use right away with their students, and for themselves.

**One occupational therapist said,** *“We just do a few Brain Gym movements and kids start doing things I’ve been trying for months to get them to do. It really makes their learning easier!”*

**Kathy Brown, M.Ed.,** licensed Brain Gym® consultant and instructor, has 23 years experience as a classroom educator (K-6). Now she offers Brain Gym services in schools, teaches Brain Gym courses and workshops, and works with private clients of all ages.

Kathy says, “I’ve never seen anything like Brain Gym for uncovering hidden potential and bringing out the best in every learner. It makes learning more fun, and makes teaching easier--and it’s simple to do. What could be better?”
